SUMMARY

Being a Software Engineering Graduate from Bahria University and with expertise in Web Development, I have collaborated with talented teams in companies to create various Web Solutions using MERN Stack.

WORK EXPERIENCE

Frontend Developer, UCapacity

[Click Here to View Project](#)

- I had an opportunity to work as a Frontend developer at UCapacity, Rawalpindi.
- I have developed responsive and dynamic web interfaces for a professional Real Estate Website during my work at UCapacity using React and Tailwind CSS, focusing on user experience and modern design principles.

Web Developer, ESP/Software, Main Head Office, Bahria Town, RWP

[Click Here to View Project](#)

- I have embraced the role of a proficient MERN stack developer at ESP/Software, Bahria Town.
 - During my role at ESP/Software, Bahria Town, I had an opportunity to work with a very talented team and I was able to develop robust and dynamic web applications using the MERN (MongoDB, Express.js, React, Node.js) technology stack.
 - Recruitment System was one of the greatest achievements of my works at ESP/Software, Bahria Town which allowed me to learn and excel in developing web applications.
-
